READY FOR HARD AND SMART WORK

Monetize people's spend time in elevators and indoor spaces with targeted advertising on the Ei-Slim Dual display, powered by ad video analytics.

DRIVEN BY A CMS FOR MANAGING AD CONTENT AND ANALYTICS.

Inspired by technology, we created a flexible solution that transforms advertising displays into an AI-powered Ad analytics advertising broadcasting point.

Available exclusively on all Ei series Digital Signage products, the AI-based video module analyzes ad campaigns by tracking views for each ad, dwell time, audience age, gender, and emotions. All these features are integrated into the original preinstalled CMS, eliminating the need for additional third-party applications.
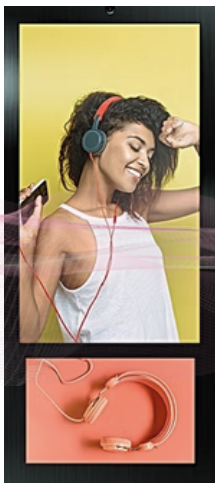

EI SLIM DUAL GIVES YOU MORE

Advertising display with IPS technology and extensive viewing angle
IPS technology enhances the control of liquid crystals,
enabling the screen to be viewed from nearly any angle.

Tempered glass protection

Covers all screen surface and provides anti-scratch
and anti-collision effect.
Anti-glare coating for better side view

Ads with Sound

A build-in speakers means your audio-visual indoor
and elevator advertising is totally self-contained.
No need for an external speakers.

4g on board

Our screen comes with a built-in 4G SIM card slot,
so you can enjoy mobile internet connectivity on your
screen at any place. It gives you freedom and
independence from local LAN or Wi-Fi. Build your ad
networks smart.

REDESIGNED SCREEN
WALL MOUNTING BRACKET

The redesigned wall mount bracket enables the installation of the Ei-Slim dual screen display on any wall surface, whether in elevators or indoors.

An additional 2mm gap has been added between the screen and the wall to enhance backdoor ventilation, contributing to the longevity of the screen's usage.
